

Sensory StoryWall®

Overview

Traditional story time can be hard for children with special educational needs, however books can be represented using touch, music and movement. Our Sensory StoryWall® gives children more ways to absorb and process information. Designed by our own in-house design team to include a selection of standard modules which are fully customisable with colour, graphics and accessories, Sensory StoryWall® was created to meet all display, storage and educational requirements.

Sensory StoryWall®

Illusion Hideaway

2308mm(H) x 700mm(D) x 1200mm(W)
SEN-05

Bubble Station

2308mm(H) x 700mm(D) x 1000mm(W)
